"This agreement, made in duplicate this ——— day of —————, one thousand nine hundred and forty-two (1942), between Lehigh Valley Railroad Company, a corporation of Pennsylvania, for itself and on behalf of its lessor, Lehigh Valley Railroad Company of New Jersey (hereinafter called the Railroad Company), of the first part, and City of Jersey City, a municipal corporation of New Jersey (hereinafter called the Licensee), of the second part, Witnesseth;

Whereas, The Licensee desires to install, maintain and use one (1) twelve-inch (12 inch), cast-iron pipe water main and one (1) eight-inch (8 inch) cross connection (hereinafter referred to as "the work") through, across, under or along, as hereinafter specified, the right of way, tracks and lands of the Railroad Company, and the Railroad Company is willing to grant such privilege, so far as it has the power and authority so to do, and subject to the terms and conditions hereinafter set forth; now, therefore, in consideration of the mutual covenants and agreements herein contained to be kept and performed by the respective parties, it is agreed:

First. That the said Licensee shall have the right, subject to the conditions and restrictions herein contained, to install, maintain and use one (1) twelve-inch (12-inch) cast-iron pipe water main (a) on Bridge No. 4-A, carrying Chapel Avenue across and over the old main line track, right of way and lands of the Railroad Company, (b) across and under the bridge, main line tricks, right of way and lands of the Railroad Company at M.P. 4,523, and (c) across and under the National Docks Branch track, right of way and lands of the Railroad Company; and to install, maintain and use one (1) eight-inch (8-inch) cross-connection between said twelve-inch (12-inch) water main and an existing eight-inch (8-inch) water main now located on the easterly side of Chapel Avenue, pursuant to a certain agreement between the parties hereto dated August 1, 1915, said eight-inch (8-inch) connection to be located approximately thirty feet (30 feet) southerly from the center line of said National Docks Branch track, all at Chapel Avenue, Jersey City, as shown in yellow on the plan hereto attached and made a part thereof, entitled:

"Lehigh Valley Railroad Company, New York Division, main line, location of proposed twelve-inch water line Chapel Avenue, Jersey City, N. J; scale, 1 inch equals 50 feet; February 5, 1942; Chief Engineer, Bethlehem, Pa.; CE-5175-N."

Second. The work hereinabove mentioned shall be done, maintained and used by the Licensee under the direction and to the satisfaction of the Railroad Company, including the approval of the quality and quantity of materials used and the time of engaging in work or repairs on the Railroad Company's property, and so as not in any manner or at any time to interfere with or impede the operation of the railroad or the use of the property of the Railroad Company. After the said work is completed and after any repairs or alterations thereof are made, the lands, tracks and right of way of the Railroad Company shall be left in as good condition as they were prior thereto. No part of said construction shall be at a less depth than three feet (3 feet) below the base of the rails of the Railroad Company where the crossing is under its tracks. During the construction of said work, or the maintenance of repair thereof, the Licensee agrees to take whatever precautions the Railroad Company may deem necessary in order to secure safety in the conduct of its operations at the place of said work.

Third.—The Railroad Company shall be at liberty to make any changes that it may desire in the location or manner of construction of its tracks, or to lay additional tracks at the place of said work, and to make any use of its lands and right of way that it may desire as fully and freely as though this permit and license had not been made, without any liability to the licensee for any damage, expense or inconvenience caused thereby.

Fourth.—The licensee in consideration of the premises agrees to pay all expenses now or hereafter incurred incident to the location, construction, maintenance and use of the work mentioned in this agreement, and all expenses in connection therewith which may be necessitated by any changes or reconstruction of, or addition to the facilities of the railroad company.

Fifth.—It is understood between the parties hereto that the operations of the railroad company at or near said crossing involve some risk, and the licensee as part of the consideration for the aforesaid privilege hereby releases and waives any right to ask for or demand damages for or on account of any loss of or damage to the wires, cables, pipes and/or facilities of the licensee that are in, upon, over or under the property and facilities of the railroad company and whether attributable to the fault, failure or negligence of the railroad company or otherwise.

And the licensee agrees to release, indemnify, protect and save harmless the railroad company from and against all costs or expenses resulting from any and all loss of life or property, or injury or damage to the person or property of any person, firm or corporation (including the parties hereto and their respective officers, agents and employees) and from any and all claims, demands or actions for such loss, injury or damage, caused by or growing out of the presence or use, or the construction, maintenance, renewal, change or relocation, and subsequent removal of said wire, cable and/or pipe crossing, and facilities of the licensee, when not attributable solely to the fault, failure or negligence of the railroad company, except that if such loss, injury or damage shall be caused by the joint or concurring negligence of both parties hereto, the same shall be borne by them equally.

Sixth.—If the licensee shall violate or fail to keep any of the covenants or conditions herein contained the rights and privileges hereby given shall forthwith terminate, otherwise this agreement shall continue in effect until terminated by mutual consent.

Seventh.—It is understood and agreed that: (a) Said twelve-inch (12") water main shall be supported by concrete piers resting on the floor of said bridge No. 4-A and shall be encased in a suitable box throughout that portion of its length which is located on said bridge, (b) that except as provided in (a) above, no part of said water main shall be attached in any way to said bridge, (c) that said water main shall be located adjacent to the westerly face of the easterly wall of said bridge and that the licensee, at its own expense, shall keep the drainage gutter along said easterly wall open and free from obstructions at all times in order that the free flow of drainage water therein may not be impeded, (d) that the junction of said eight-inch (8") cross connection with the said existing eight-inch (8") water main shall be located at a point ahead of the railroad company's meter now in place therein, and in accordance with licensee's plan 9-C-21.

Eighth.—It is further understood and agreed that, in the event that the location and maintenance of said water pipe on the railroad company's said bridge No. 4-A shall necessitate the reinforcing or strengthening of said bridge, the licensee, at its own expense, shall furnish all labor and materials and shall do such work as may be necessary to place said bridge in a safe condition, or shall pay the railroad company for so doing promptly upon receipt of bills therefor.

Any waiver at any time of the railroad company's rights as to anything herein contained shall not be deemed a waiver as to any breach of covenant of other matter subsequently occurring.

This agreement shall be binding upon and enure to the benefit of the parties hereto and their respective successors and assigns.

In witness whereof, The parties hereto have duly executed this agreement the day and year first above written.

At this time Mr. John Allen representing the Everlasting Valve Company of Jersey City and Mr. Whitten, representing the Crystal Laundry of Jersey City, appeared before the Board and protested against the nuisance created by the Industrial Synthetic Corporation which is located in the West Side section of the City, adjacent to their plants. Mr. Allen stated that the company manufactures benzoate of soda, setting free benzoic acid in the neighborhood and it also includes muriatic acid purchasing in great quantities; that it sends out chlorine gas in the air, which is destructive to animals and human beings; that he believes it is not necessary to tell the Commission what chlorine gas means when it is discharged in the neighborhood; that his own stenographer must apply a wet towel to her face to get relief from this gas; that the complaint has been up before the police court and now they are seeking relief from the Commission; that he is appealing for the hundreds of employees in his organization; that the plant is 95 to 100 per cent government work; that there is work which will take at least one year and that they outfit the Du Pont Plants; that his employees refuse to work there very long; that some of their employees have been with the

Everlasting Company twenty-five years or more and stay there until they are unable to continue working because of age; that some of their men are 68, 70 and 72 years of age in the assembly branch; that they have quite a creditable establishment since 1908; that eventually their business will be destroyed.

The Mayor stated that the Commission will give them relief and suggested that the Commission hear Inspector Boyle of the Health Bureau.

Inspector Boyle stated that he has discussed the matter with both Mr. Allen and Mr. Whitten; that the establishment they refer to has been located there about a year or a year and a half; that the condition outlined by Mr. Allen has not been exaggerated; that Mr. Whitten employes about 250 to 300 people and Mr. Allen employs a like amount; that his inspectors have gone up there and standing at a distance of about eight hundred feet from the plant, their throats and mouths were parched; that Mr. Whitten informed him that the operators of the plant have resorted to extortion methods and say that if they get $25,000 they will move the plant out of town.

The Mayor asked Inspector Boyle if he has resorted to any medical experts and he replied that he has not as yet done so; that he only knows the physical conditions. The Mayor then instructed Inspector Boyle to consult with the medical experts today or tomorrow; that it will be very helpful in going before the courts.

The Mayor then called the Corporation Counsel, Mr. Rooney and stated that he doubts whether the criminal court can bring about the necessary relief; that it is the wish of the Commission that the Law Department proceed with injunction proceedings to restrain this chemical company; that it is very serious and that medical testimony would be very helpful.

Mr. Whitten stated that his laundry plant employs about 250 to 300 people; that they operate from six in the morning until 12 at night; that his employees have complained about the odors and fumes; that they went to a great expense installing a cooling system and for washing the air; that the air conditioners now pull in the air and gases; that the employees get headaches, nose and mouth dryness and he personally has been affected and went to Dr. Nicholson; that he used nose drops and then later his nose started to bleed; that as soon as he went out into the yard, his nose would bleed; that he found his employees complained of burning eyes, dry mouth and throat and nose.

The Mayor asked Mr. Whitten if he could get Dr. Nicholson to give us a report; that all such medical information will be of great help in taking the matter before the Court of Chancery. He then told Mr. Allen and Mr. Whitten that they will get their day in Court and instructed them to go to the Law Department with Mr. Rooney who will start preparing the case immediately.

Mr. Allen and Mr. Whitten thanked the Mayor and Commissioners for the cooperation extended to them.

Following roll call, the City Clerk administered the oath of office to Captain Michael McClain, and he was sworn in as Labor Relations Assistant to the Mayor and City Commission.

At this time the Mayor addressed the assemblage and stated that the City and the Commission are to be congratulated on the selection of Captain McClain; that he has personally known him forty years and has never known anyone who has devoted greater effort in labor interests than the captain; that because of the present war emergency it is essential that we have a labor representative who knows conditions and can act on any controversy that may arise; that we must realize there are hundreds of industries located in Jersey City doing war work; that he desires to congratulate Captain McClain for the manner in which he has handled labor disputes between the workingman and the labor leaders and industry; that we will have less trouble between capital and labor; that the Mayor wishes to congratulate Captain McClain on becoming part of our official family.

Captain McClain responded to the Mayor's address and thanked the Mayor and Commissioners and the various members of the Labor Organizations for the honor bestowed upon him; that while it is a little late in life for him to seek this honor, he was always satisfied to go along in these times, in the interest of labor, for amicable settlements in any controversy that arose between capital and labor; that he will give his best efforts through justice and sincerity to the best of his ability.

The following labor representatives also congratulated Captain McClain on his appointment and congratulated the Mayor and Commissioners for their selection of Captain McClain:

Mr. Joseph Quinn, representing the Central Labor Union of Hudson County.

Mr. Donald Lawder, Executive Secretary, Hudson Industrial Local, CIO.

Mr. A. F. Yockel, representing International Association of Machinists, of the AFL.

Mr. William Kavanaugh, representing the Central Labor Union.

Mr. James Kelly and Counsellor Blohm of the Housing Authority of Jersey City of which Captain McClain was a member, also extended their congratulations to the Captain and thanked the Mayor and Commissioners for honoring Captain McClain.

The Mayor then stated in closing that he wants everyone to know what the motives of the Mayor and Commissioners are; that we read in the public press about the controversies and trouble and disputes which are tying up the country's production efforts, that we feel with Captain McClain working in harmony with labor and industry, we can establish a record; that we can intelligently handle these problems arising between labor and industry; that it is absolutely necessary that harmony prevails in these times; that where minor disputes arise, if they are checked immediately, we will prevent any uprisings, that when the heads of CIO and AFL work in harmony, you can see the great advantage to production; that he feels sure we are displaying sound judgment and good common sense in creating this position and that it is a step in the right direction to create harmony in the labor ranks which answers the appeal of our great President that there be no stoppage in production; and, in conclusion, on behalf of the people of Jersey City, he wants to thank the various labor representatives for their appearance here today and the expression of their opinions.

IMPROVEMENT HEARING

Hearing for the purpose of considering the undertaking of the following proposed improvement: "To change and establish at eight feet the width of the sidewalk on the south side of Ninth Street from Henderson Street to Provost Street," and the adoption or rejection of an ordinance covering said proposed improvement, having been adjourned and continued to this time and place at the request of Counsellor A. Sepenuk, representing a property owner who is opposed to the proposed improvement, the City Clerk read the public notice and the ordinance and then called for anyone who might desire to be heard concerning the improvement.

Counsellor Thomas Lynch appeared for the applicant (Swift & Co.).

Counsellor Joseph McGuinness appeared for two property owners in the area affected, and stated that they do not object to the proposed improvement, and feel that it will enhance their property value.

Counsellor A. Sepenuk appeared for his client who is opposed to the proposed improvement.

Mr. Sepenuk stated that he represents the owner of the property at the corner of Ninth and Provost Streets; that his client is engaged in the scrap metal business, which is also a vital part of the war effort; that his client has been unable to use the entrance to his property on the Ninth Street side because the Swift Company trucks block that entrance; that their property is assessed at $18,000, which his client feels is a reasonable assessment and has never appealed it; that if the improvement goes through his client's sidewalk will be cut down to three feet; that the Swift Company trucks have broken down the grades in front of his client's property.

Mr. Lynch stated that Counsellor Kearney was to be present at the hearing today in behalf of two property owners in the area who are in favor of the proposed improvement; that last July Max Sepenuk in which they asked that the sidewalk be constructed around the corner to the side of his property; that he has photographs of the present condition showing hardly any sidewalks there; that with the advent of the present war, it has been necessary to call into the armed forces a vast number of men; that many of these men are located in camps within 100 miles of Jersey City and the only way his company can supply these camps with fresh meats is by truck; that Swift & Company had to go into the purchase of large trucks and equipment and this larger equipment experiences great difficulty in making the turns; that Swift & Company will assume the expense of the improvements.

At this time Counsellor Sepenuk, Counsellor Lynch, Counsellor McGuinness and the Mayor and Commissioners conferred at length and the Mayor then announced that because of the increased demands on Swift & Company for supplying the Army and Navy camps it is impossible for them to successfully comply with these demands because of the present street condition and because of this Counsellor Sepenuk withdraws his objections conditioned that this improvement may proceed without any interruption.

Mr. Sepenuk asked Mr. Lynch if Swift & Company will repair the Ninth Street side grades and Mr. Lynch replied that it will be done.

Thereupon the Mayor announced that the objections have been withdrawn and moved that the hearing close.

By Mayor Hague:

Resolved, That the hearing on the undertaking of the foregoing proposed improvement do now close.

The roll being called the resolution was adopted by the following vote:

Yeas: Commissioners Casey, Colford, Potterton and Mayor Hague.

Nays: None.

By Commissioner Colford:

Resolved, That the following ordinance do now pass:

An ordinance to change and establish at eight (8) feet the width of the sidewalk on the south side of Ninth Street from Henderson Street to Provost Street.

Whereas, Swift & Company owns all the frontage upon the north side and a large portion of the frontage upon the south side of Ninth Street; and

Whereas, he said company is now engaged in the business of shipping and trucking vast quantities of meats and supplies to the armed forces of our country; and

Whereas, the necessity for quantity and prompt deliveries to our armed forces requires the use of large trucks; and

Whereas, the present roadway of Ninth Street is not of sufficient width for operating of large trucks; and

Whereas, the roadway surface will be materially increased if the width of the sidewalk on the south side of Ninth Street is changed and established at eight (8) feet; and

Whereas, Swift & Company agrees to place a new monolithic sidewalk eight (8) feet in width, including curbing, for the entire length of the south side of Ninth Street from Henderson Street to Provost Street, at its own cost and expense;

Now, herefore, the Board of Commissioners of the City of Jersey City do ordain as follows:

Section 1. That the width of the sidewalk on the south side of Ninth Street, from Henderson Street to Provost Street be, and it is hereby changed and established at eight (8) feet.

Section 2. That Swift & Company shall place a new monolithic sidewalk, eight (8) feet in width, including curbing, for the entire length of the south side of Ninth Street from Henderson Street to Provost Street.

Section 3. That this ordinance shall take effect immediately.

The City Clerk read the foregoing ordinance as ready for final passage.

The roll being called the ordinance was passed by the following vote:

Yeas: Commissioners Casey, Colford, Potterton and Mayor Hague.

Nays: None.

By Commissioner Colford.

RESOLVED, That the following ordinance do now pass:

AN ORDINANCE

AN ORDINANCE ENTITLED "AN ORDINANCE CONCERNING COLLECTION OF TIN CANS".

Whereas, The collection of tin cans in the manner heretofore followed has become impractical because of the difficulty in finding suitable and sufficient dumping grounds and places for the disposal of the same; and

Whereas, The collection of said tin cans in the manner heretofore followed is dangerous to those engaged in their collection and handling, and unsanitary in that it may cause the breeding of vermin and spreading of disease; and

Whereas, Due to the existing state of war it has become necessary to salvage metals, particularly tin, which is vital and essential to the prosecution of the war;

Now, Therefore, The Board of Commissioners of the City of Jersey City, do ordain as follows:

1. That it shall be unlawful for the occupant of any dwelling house, apartment, store or other building to place or cause or suffer to be placed on any public street or other place, any used or discarded tin can unless such discarded tin can has been thoroughly

cleaned, all paper and other wrappings removed thereform and completely flattened after the removal of the top and bottom thereform, and deposited in a suitable receptacle separate and apart from all other refuse, ashes or debris.

2. Tin cans which have contained paint, oil, grease, floor polish, evaporated and condensed milk, and cone-shaped cans shall not be subject to the provisions of Paragraph 1 hereof but may be discarded or disposed of as heretofore.

3. That any discarded tin can placed upon any public street or other place in violation of Paragraph 1 hereof shall not be collected by the Department of Public Works of the City of Jersey City or by any contractor under contract with the City for garbage removal.

4. Any person, persons, firm, partnership, or corporation who shall violate any of the provisions in this Ordinance shall be liable to a penalty not exceeding the sum of ten ($10.00) dollars for each offense.

No one appeared to protest and no written protests were received.

Commissioner Casey, Director of the Department of Public Safety, requested that the hearing be adjourned and continued to the next regular meeting of the Commission.

By Commissioner Casey:

Resolved, That the hearing on the final passage of the following ordinance: "An Ordinance concerning public order, welfare and good conduct and prohibiting acts or conduct detrimental to the peace, good order, comfort and welfare of the City, and providing for the punishment thereof'," be and the same is hereby adjourned and continued to Tuesday, January 19th, 1943, at 10:30 o'clock A.M. in the Assembly Chamber, City Hall, Jersey City, N. J.

The roll being called the resolution was adopted by the following vote:

Yeas: Commissioners Casey, Colford, Eggers, Potterton and Mayor Hague.

Nays: None.

At this time the Mayor directed the City Clerk to read the following communication from City Comptroller Raymond M. Greer:

"Honorable Board of Commissioners of Jersey City, City Hall, Jersey City, N. J.

Gentlemen:

Due to the unprecedented conditions which have arisen because of the War, I have been compelled to make a very unwelcome decision. As you know, I have been associated with the New York accounting firm of Boyce, Hughes & Farrell for twenty-five years, and have been a partner in that firm for the past nine years. The business of that firm has increased a great deal in the past two years, in particular. In addition, we have lost a large number of our accounting staff to the Armed Forces. A situation has now arisen where it is necessary for me to give more of my personal attention to the firm's business if we are to continue in business.

Inasmuch as my duties as City Comptroller have taken almost 100 percent of my time since I took office in August, 1935, I do not feel that I would be doing justice to either the City or my firm if I were to continue under present arrangements.

In view of all the circumstances, I am forced to herewith submit for your consideration my resignation as City

Comptroller to become effective February 1, 1943.

I can state with the utmost sincerity that my association with Mayor Hague and the other members of the City Commission has been one of perfect harmony, and I am more than grateful for the wholehearted cooperation which I received from you gentlemen in my position as Comptroller. There is no doubt that, without such cooperation, the City could not have weathered the storm through which it has successfully passed because of the general depression, and particularly because of the extreme adverse situation which has existed in Jersey Ciity due to the tax strike entered into by the railroads since 1932.

I have found that, in every single instance, the Mayor and City Commissioners have foregone political expediency and have done many things which a less courageous governing body would have refrained from doing in order to retain a political advantage.

As a member of the National Municipal League, the Local Government Board of New Jersey, and the New Jersey Tax Law Revision Commission, I have had ample opportunity to study municipal officials and the conduct of municipal affairs, both in New Jersey, and in many other parts of the country. Because of general financial conditions during the depression, it was necessary for me, on numerous occasions, to solicit your support for unusual economies and changes in operation which any other Mayor or City Commission in the State of New Jersey, or in the country for that matter, would have looked upon in horror as asking them to do things which they would consider political suicide. But you were too big to regard my requests in this light. You knew that the measures were necessary and you brushed aside, willingly, all political considerations in wholeheartedly supporting me in any financial matters affecting the City of Jersey City, concerning which I made recommendations. In no other city could such support be obtained. Most City Commissions are either divided or are at loggerheads a great deal of the time, and each member of the governing body is worrying about his own personal re-election rather than taking into consideration "the welfare of his city as a whole. Naturally, this is a great detriment to successful financial operation. I was never faced with such handicaps. I cannot say enough in appreciation of the unselfish support that you have given every single one of my recommendations, which were, of course, for the ultimate financial benefit of the city.

The greatest single step in rehabilitating the city's finances were the voluntary salary reductions which amounted to over $23,000,000, and a reduction of 20 per cent in personnel, saving millions more. This, obviously, could not have been accomplished without your vigorous leadership, as the bulk of the salary reductions were made voluntarily by the employees in years in which there was no legislation which permitted the City or Board of Education to reduce salaries of any non-consenting employee.

Your cooperation in placing Jersey City on a cash basis, since 1936, has enabled us to absorb the $20,000,000 loss in revenue due to the railroad tax strike, and your cooperation in keeping expenditures below appropriations by rigid economies, together with conservative budget methods, enabled Jersey City to start the year 1942 with a free cash surplus of $5,998,982. From present estimates it is certain that your fiscal operations for the year 1942 will be completed with all bills paid in full and a free cash surplus in excess of $6,500,000 remaining from current operations. This will be the seventh consecutive year in which you have had a cash surplus remaining after payment of all obligations. Your accomplishments in this respect are absolutely unique in the country.

In addition, since 1936, your consistent policy of economy has resulted in net reduction of $16,209,324 in the bonded indebtedness of the city.

I regret that I am unable to stay in my official position until the day when you will recover for the City of Jersey City the $20,000,000 which the railroads owe to us, and will obtain a repeal of the unfair legislation which now gives a preference to railroad property in the form of tax legislation which will inevitably shift a substantial portion of the railroads' share of taxation in Jersey City on to the backs of the ordinary taxpayers. If the Legislature had not taken this $20,000,000 owed to us, as determined by the State and Federal Courts, we would now be enjoying one of the lowest rates of taxation in the State of New Jersey. When you are finally successful in your litigation to upset the Railroad Tax Acts, the city's financial position will be the envy of the nation.

While numerous attempts are now being made for the avowed purpose of wrecking Jersey City financially, I am confident that, for the past number of years you have built upon such a solid foundation that the city will be able to successfully weather a great many blows, I am confident that your resourceful leadership will bring Jersey City through these temporary adverse conditions with colors flying and that Jersey City will retain its rightful position as one of the leading municipalities of the nation."

Respectfully submitted,
(Signed) R. M. GREER,
Comptroller.

At this time Mayor Frank Hague issued the following statement:

"It is with a great deal of regret that the Board of Commissioners of Jersey City has received a communication from Raymond M. Greer, to the effect that he finds it necessary to resign as Comptroller of Jersey City. We appreciate that, because of the unusual war conditions, Mr. Greer finds that his duties as partner in one of the leading accounting films of the country will not permit him to give all of his time to the duties of City Comptroller.

While the City Commission is willing to accept Mr. Greer's resignation, effective as of February 1, 1943, it has worked out an arrangement with Mr. Greer whereby he will be engaged by the City in an advisory capacity for the purpose of supervising, managing and forming the financial policies of the Comptroller's Office. With this understanding the City Commission is, therefore, not going to fill the position of Comptroller. The City has a serious need for Mr. Greer's ability as one of the outstanding financial officials of the United States. I have personally had ample opportunity to observe and weigh his capabilities since he first started work in 1917, auditing the Jersey City accounts for an outside accounting firm. The intimate knowledge that he has gained over the past quarter of a century of the workings and particular problems of Jersey City's financial matters, qualify him as no other man to supervise the financial department of the City.

When I first asked Mr. Greer to take the position of City Comptroller in 1935, I explained to him that the City Commission had picked him for that position because we felt that the City finances should be kept wholly and completely free from any political considerations whatever.

As Mr. Greer has stated, he has been completely free to run his department on a business-like basis, and policies of no kind have been permitted to interfere with him.

When Mr. Greer became Comptroller in 1935, the finances of the City were in a precarious condition. Besides having felt the impact of a nation-wide economic depression, Jersey City has had a particular problem with which no other municipality has been forced to cope. I refer to the tax strike deliberately entered into by the railroads, starting in 1932, at a time when they felt that the withholding of large revenues from Jersey City would force us to discontinue our fight to compel the railroads to bear an equitable portion of Jersey City taxes. With more than half of the area of Jersey City owned by the railroads, this tax strike very nearly forced us into default.

Mr. Greer's recommendation, which the City Commission adopted, for the refunding of $25,000,000 of temporary indebtedness, together with salary reductions ranging from 23½ percent to 32 percent, a reduction in personnel of almost 20 percent, and other rigid economies, enabled the City to successfully pass through a serious financial crisis.

The City Commission believes that the best indication of Mr. Greer's ability is concretely demonstrated by the fact that Jersey City, according to Mr. Greer's report, will end the fiscal year of 1942 with a free cash surplus in excess of $6,500,000.

For an impartial opinion as to Mr. Greer's ability as City Comptroller, I should like to refer to a recent special report made on Jersey City by the leading financial publication of the country, in which it was stated:

'Special mention should be made of the improved and capable management of the City's Finance Department, under the direction of Comptroller Raymond M. Greer, an accountant by profession and one of the five members of the Local Government Board, a State Agency charged with the supervision of Municipal Finances. The indications of capable financial management shown in recent years suggest that in future periods of deflation steps would be taken to meet the needs of the situation.'

In addition to Mr. Greer's regular services as City Comptroller, his advice and counsel have been invaluable in assisting me in my current fight to compel the railroads to pay the $20,000,000 in railroad taxes and interest which our City, State and Federal Courts have uniformly ruled is owed to Jersey City.

While we regret that pressure of war conditions have compelled Mr. Greer to make his decision to resign as Comptroller of Jersey City, yet we must consider ourselves very fortunate that he has agreed to continue to make his services available to us as a financial consultant and advisor. I have, therefore, instructed the Law Department to draw the necessary resolution to engage Mr. Greer in that capacity as of next February 1st."

Whereas, It appears that a suit was instituted in the First District Court of Jersey City for a claim based on wharfage charges at Pier "B" from July 28, 1936, to August 20, 1936, against one Thomas Connelly, who it was alleged at the time was the owner of a ship named the "Constellation" but it occurred that the said ship was owned at the time by the Empire Marine Salvage and Engineering Corporation, which was practically defunct and had no assets, and which ship was sold and resold and was the subject of federal libel suits and New Jersey Supreme Court attachment suits, and it, therefore, appears that under the circumstances the said Thomas Connelly could not be liable not being the owner of said ship; however, a settlement of

Twenty-five ($25.00) Dollars has been offered in adjustment of this claim; now, therefore, be it

Following roll call, the Mayor declared the meeting open and directed the City Clerk to proceed with the matters before the Board.

The City Clerk read the following call for the special meeting:

"OFFICE OF THE MAYOR,
"CITY HALL,
"JERSEY CITY, N. J.
"January 21, 1943.

"Philip F. McGovern, Esq.,
"City Clerk, City, Hall,
"Jersey City, N. J.

"Dear Sir:

"This is to advise you that I do hereby call a special meeting of the Board of Commissioners of the City of Jersey City, N. J., to be held on Friday, January 22, 1943, at 11 o'clock a.m., in the Assembly Chamber, City Hal, Jersey City, N. J., for the purpose of taking action before the Hudson County Board of Taxation with respect to the prepreliminary equalization table filed by said Hudson County Board of Taxation for the year 1943.

"Kindly arrange for this meeting and notify all the members of the City Commission immediately.

"Yours very truly,
"(s) FRANK HAGUE,
"Mayor."

The Ctiy Clerk then read the following notice sent to the members of the City Commission of Jersey City:

"Sirs:

"Please take notice that by direction of the Mayor a special meeting of the City Commission will be held on Friday, January 22, 1943, at 11 a.m. in the Assembly Chamber in the City Hall.

"The purpose of said meeting is to take action with respect to the Preliminary Equalization Table prepared by the Hudson County Board of Taxation for 1943.

"Yours respectfully,
"(s) PHILIP F. McGOVERN,
"City Clerk.

"Dated: January 21, 1943.

"Due receipt of notice of above meeting is hereby acknowledged this 21st day of January, 1943.

"(s) DANIEL CASEY,
"(s) JOSEPH E. COLFORD,
"(s) FRANK H. EGGERS,
"(s) ARTHUR POTTERTON,
"(s) FRANK HAGUE."

The Mayor presented the following communication and directed the City Clerk to read it:

"CITY OF JERSEY CITY,
"LAW DEPARTMENT.
January 21, 1943.

"Hon Frank Hague,
"Mayor of Jersey City,
"Jersey City, N. J.

"My dear Mayor:

"The Director of Revue and Finance has turned over to me the preliminary equalization table which he has just received from the Hudson County Board of Taxation.

"Under that equalization table the County Board states that the assessed valuation of real property in Jersey City should be decreased by 25%. Any such action by the County Board in making a drastic reduction of 25% is wholly unwarranted and not in conformity with prior judgments of the State Board of Tax Appeals and of the courts of our state determining the values of real estate in Jersey City.

It is my opinion, therefore, that Jersey City should contest before the County and State Board, and before the courts of our state, if necessary, any such reduction. I, therefore, recommend that you call a special meeting of the City Commission for the purpose of passing a resolution authorizing the Director of Revenue and Finance, and myself, to take such action as may be deemed necessary to protect the City's rights and to prevent the County Board from effectuating this 25% reduction which, in turn, will result in a sharp increase in the tax rate of Jersey City.

"Respectfully,
"(s) CHARLES A. ROONEY,
"Corporation Counsel."

At this time Commissioner Potterton stated that he would like to report that he and Mr. Rooney conferred on this matter and because it is such a serious one and would affect Jersey City so seriously, that he asked Mr. Rooney to prepare a proper resolution covering this proposition, to be presented at this meeting. He then presented the resolution and the Mayor directed the City Clerk to read it.

By Commissioner Potterton:

Whereas, The Hudson County Board of Taxation has adopted a preliminary equalization table for the County of Hudson for the year 1943 and published the same under date of January 18, 1943, reducing the assessed value of the real estate in the taxing district of Jersey City from $431,959,327, as assessed by the Assessor of the City of Jersey City 25% to the sum of $323,969,495; and

Whereas, This reduction is radical, unwarranted, unjust, and fixes the value of the real estate in said taxing district at 25% less than its true value; now, therefore, be it.

Resolved, That the Director of Revenue and Finance of the City of Jersey City be and hereby is authorized on behalf of the City of Jersey City to file a verified objection to such action by the Hudson County Board of Taxation, on Monday, January 25, 1943, in conjunction with the Corporation Counsel, and to do all things required to be done in connection with those objections before said board or other tribunal, and incur any necessary expenses with respect thereto.

The City Clerk called the roll on the adoption of the foregoing resolution, and the resolution was adopted by the following vote:

Yeas: Commissioners Casey, Colford, Eggers, Potterton and Mayor Hague.
Nays: None.

On motion of Commissioner Potterton the Board adjourned.

Approved:
DANIEL CASEY,
JOSEPH E. COLFORD,

EXPLANATORY STATEMENT

Based on realty and personalty valuations certified to the Hudson County Board of Taxation, it is estimated that the annexed 1943 budget will result in a tax rate of not more than $53.52 per thousand dollars of valuations, a decrease of at least $0.21 from the 1942 tax rate of $53.73.

The total of all 1943 appropriations is decreased $1,499,658.62, as compared with the total of all 1942 appropriations.

Total appropriations for municipal operating expenses decreased $408,337.34, and debt service decreased $25,152.50, making a total actual decrease of $433,489.84 in 1943 expenses as compared with 1942.

The local school tax for the Board of Education increased $219,857.85.

While it appears that state and county taxes will be *lower* in 1943 than in 1942, state regulations compel the city to estimate these taxes at not less than the 1942 figures in making up this statement.

The reserve for uncollected taxes has been reduced by $1,284,462.37.

The amount to be raised by taxation is decreased $1,260,431.05. This decrease in the amount to be raised by taxation would ordinarily result in a decrease in the 1943 tax rate of $2.05 if the 1943 valuations were the same as the 1942 valuations. However, due to the fact that realty and personalty assessed valuations show a net reduction of $16,930,000 in 1943, the estimated decrease in the tax rate amounts to approximately $0.21 per thousand dollars of valuations rather than a decrease of $2.05. The $16,930,000 decrease in total assessed valuations is wholly due to the reduction in assessments on intangible personal property which are $18,000,000 lower in 1943 than in 1942.

The estimated tax rate for 1943 may vary from the final tax rate when the actual amounts of the state and county taxes for 1943 are finally apportioned. The rate will also vary in accordance with any revision of the City's valuations made by the Hudson County Board of Taxation.

BUDGET HEARING

This time and place having been fixed by resolution of the Board of Commissioners and public notice advertised as required by law for the purpose of holding a public hearing on the adoption of the budget for the City of Jersey City for the year 1943, the City Clerk read the public notice of hearing as published in the newspapers.

The City Clerk read a communication signed by N. D. Dorsett, Supervisor of Accounts, for Walter R. Darby, Commissioner of Local Government of New Jersey, certifying that the 1943 Budget of the City of Jersey City, Hudson County, complies with all the requirements of R. S. App. A:4-25 and R. S. App. A:4-26, as well as the provisions of R. S. 40:1-74, said approval being given under the authority of R. S. App. A:4-27, and that the Budget complies with the requirements of R. S. 40:2-53.

Commissioner Potterton announced that the 1943 Budget for the City of Jersey City, was now before the Board for adoption; that he understands there are citizens present, who would like to be heard at this time as proponents of the Budget.

The following persons who had requested permission to be heard, appeared before the Board, presented written statements, and then addressed the Board in favor of the Budget:

John Lauten, President of the Monticello Ave. Businessmen's Association and Past Commander of the Albert L Quinn Post, No. 152, American Legion.

Joseph Quinn, President, Central Labor Union, A.F.L.

Alfred Pakenham, President of the City Taxpayers League of Jersey City.

Commissioner Potterton stated that the proponents have been heard and that the Board will be glad to hear from anybody who might have objections to the adoption of the Budget as prepared and presented. No one appeared to protest and no written protests were received.

The City Clerk then read the following "Opinion of Local Government Board—In the matter of the appeal from the determination of the Commissioner of Local Government affecting municipality of Jersey City in the State of New Jersey, dated Feb. 23, 1943."

In the matter of the appeal from the determination of the Commissioner of Local Government affecting municipality of Jersey City in the State of New Jersey.

Opinion of Local Government Board.

This is an appeal by the City Affairs Committee of Jersey City, a corporation of New Jersey, to the Local Government Board from determinations made by the Commissioner of Local Government with respect to the local budget for the City of Jersey City for the year 1943.

The petitioner appeals both from a certification made by the Commissioner of Local Government certifying the 1943 budget of the City of Jersey City, as well as from a determination made by the Commissioner of Local Government on February 15, 1943, affecting the budget of Jersey City for 1943.

This appeal was heard by Messrs. Ehmling, Schenk, and Hoffman. Commissioner Darby disqualified himself by reason of the fact that the appeal was from his determinations and Mr. Greer voluntarily disqualified himself because of his association with the City of Jersey City.

The subject matter of the appeal involves the inclusion in the 1943 budget of the City of Jersey City of the sum of $2,350,000.00. It is admitted that the City of Jersey City had on December 31, 1942, a cash surplus of at least $7,875,019.66. There was some testimony by the petitioner that the amount of cash surplus was in the amount of $7,-

939,978.94. The exact figure is not germane to the issue involved in the appeal.

There was considerable argument of a technical nature presented to the Board concerning the time within which the appeal was filed. The Board, however, feels that the issue is of such importance as to warrant a complete consideration of the facts on their merits and without regard to the technical aspects of the procedure employed.

The petitioner contends that the governing body of Jersey City was under a legal duty to include the entire amount of cash surplus in existence on December 31, 1942. The petitioner contends that the effect of including in the budget only a portion of the surplus cash in existence on December 31, 1942, and not the entire amount in existence, consttiuted a violation of the duty of both the local governing body in approving such a budget, and also of the Commissioner of Local Government in certifying such a budget, and rendered such a budget illegal.

The petitioner also contended that it was unsound economic and fiscal policy to include only a portion of the cash surplus in existence and not the entire amount.

The Board cannot agree with either of these contentions.

The provisions of the Budget Act relied upon by the petitioner in substance are R. S. 40:2-13 and R. S. 40:2-6. R. S. 40:2-13 provides as follows:

"ARTICLE 3. Form and Content.

40:2-13. Contents; general requirements. The budget shall consist of a tabulated statement of (a) all anticipated revenues applicable to the expenditures for which appropriations are made in the budget, and (b) the appropriations to be made for all purposes for which such revenues are to be expended. The total of such anticipated revenues shall equal the total of such appropriations."

The last paragraph of R. S. 40:2-16 provides as follows:

"Unless the State Auditor shall give his prior written consent thereto, the amount of any item of 'surplus revenue appropriated" included in any budget shall not exceed the amount of surplus revenues held in cash at the beginning of the budget year, less all outstanding commitments or obligations against such cash."

The Board finds nothing in either of these sections to impose a mandatory obligation on the part of the local governing body to include the entire amount of cash surplus in existence. R. S. 40:2-13 specifically refers to the form and content of the budget. It was not intended to prescribe the amounts of specific items that are to be contained in budgets as anticipated revenue, but relates to what the budget shall contain as to the sources of these anticipated items.

R. S. 40:2-16 specifically provides that a municipality shall not include in any budget surplus revenue which shall exceed the amount of surplus revenue held in cash at the beginning of the budget year, less all outstanding commitments or obligations against such cash, unless the State Auditor, now the Commissioner of Local Government, shall give his prior written consent thereto.

The Legislature thus fixed a ceiling on the amount of surplus revenue which can be included in a budget by the local governing body without the written consent of the Commissioner of Local Government, but as to the floor of such an amount, it properly left to the discretion of the government body to be exercised in the light of existing as well as probable future conditions.

We find no statutory requirement or authority in law which would entirely deprive a governing body of its discretion to use such an amount of cash surplus as it may be deemed desirable and advisable, under the ceiling.

On the contrary, and in proof that no floor on cash surplus was intended in R. S. 40:2-13, the Legislature has by specific legislation, namely, Chapter 297, P. L. 1941, as amended by Chapter 304, P. L. 1942, given to municipalities the right to use cash surplus which may be on hand for the purchase of current income bonds issued by the United States of America, including War Savings Bonds issued by the United States of America. In other words, the Legislature by its recent enactments has recognized that municipalities have and do accumulate cash surpluses in varying amounts.

The recent legislation definitely contradicts the contention of petitioner that the legislative intention of R. S. 40:2-13 was to mtake it mandatory upon municipalities to include the entire amount of cash surplus available, since it would be futile to pass such recent legislation if petitioner's contention was correct, since no cash surplus would ever be available for the purchase of such bonds.

It naturally follows that if the City of Jersey City was under no obligation to include the entire amount of cash surplus in its 1943 budget, that the Commissioner of Local Government did not violate any duty in certifying the 1943 budget as filed in the Office of the Department of Local Government.

The contention of the petitioner that the failure of the governing body of Jersey City to include the entire amount of cash surplus available constituted unwise and uneconomic fiscal conduct, is equally unsound.

For many years this Board and others actively engaged in the field of local government have consistently recognized the need for the creation and accumulation of cash reserves as a necessary and important fiscal procedure to maintain and stabilize the sound financial conditions of local governments.

It has been a consistent and continuing policy of the Local Government Board to encourage this objective. The Third Annual Report of the Local Government Board of the State Department of Local Government published in March, 1942, stated as follows:

"Municipal officials are urged by the Local Government Board, to examine with great care and caution proposals for expenditures and creation of debt for non-defense, public works, to improve the efficiency and reduce the cost, wherever possible, of their administrative machinery, to accumulate cash reserves, wherever possible, and to work for steadily decreasing municipal debts and debt burdens." (P.26—underscoring supplied).

The logic behind the recommendation of the Local Government Board to accumulate cash reserves is self-evident and has always been a part of sound, prudent, fiscal municipal management.

The principle of a cash reserve or of a cash surplus for a political entity whether it be a State, a County, or a municipality, is a good one. Wherever possible, prudent authorities in charge of the fiscal management of a State or a County or a municipality endeaver to accumulate these reserves. The logic of such accumulation of reserves to meet emergencies or the vicissitudes of future events has been recognized by Governor Edison of New Jersey, who in his budget message, submitted on January 18, 1943, stated as follows:

"Since the submission of my last budget the State has operated its various activities for more than a full year while our country has been engaged in war. My previous budget recommendation provided a surplus of funds that I recommended be used exclusively for emergencies which might have resulted from the war. This year's budget also shows a surplus of $4,381,948. I still favor the principle of an emergency reserve, and I recommend that the surplus be set aside to meet a crisis, if one should arise. This surplus can also act as a cushion for any decline in revenue. Nobody knows what emergency needs may appear, and it is the part of wisdom to be prepared."

The adoption of any policy which would immediately wipe out accumulated cash surpluses would place municipalities of the State in a highly precarious position and unable to properly face the many problems which undoubtedly lie ahead.

For the reasons expressed in this opinion, the Local Government Board finds that the grounds for the appeal are not well founded and the determinations of the Commissioner of Local Government are, therefore, sustained.

For the Board:

CHARLES J. EHMLING,
SAMUEL D. HOFFMAN,
JOHN F. SCHENK.

Dated: February 23, 1943.

G. C. SKILLMAN (Signed)
G. C. SKILLMAN, Secretary.

EXPLANATORY STATEMENT

Based on realty and personalty valuations certified to the Hudson County Board of Taxation, it is estimated that the annexed 1943 budget will result in a tax rate of not more than $53.52 per thousand dollars of valuations, a decrease of at least $0.21 from the 1942 tax rate of $53.73.

The total of all 1943 appropriations is decreased $1,499,658.62, as compared with the total of all 1942 appropriations.

Total appropriations for municipal operating expenses decreased $408,337.34, and debt service decreased $25,152.50, making a total actual decrease of $433,489.84 in 1943 expenses as compared with 1942.

The local school tax for the Board of Education increased $219,857.85.

While it appears that state and county taxes will be *lower* in 1943 than in 1942, state regulations compel the city to estimate these taxes at not less than the 1942 figures in making up this statement.

The reserve for uncollected taxes has been reduced by $1,284,462.37.

The amount to be raised by taxation is decreased $1,260,431.05. This decrease in the amount to be raised by taxation would ordinarily result in a decrease in the 1943 tax rate of $2.05 if the 1943 valuations were the same as the 1942 valuations. However, due to the fact that realty and personalty assessed valuations show a net reduction of $16,930,000 in 1943, the estimated decrease in the tax rate amounts to approximately $0.21 per thousand dollars of valuations rather than a decrease of $2.05. The $16,930,000 decrease in total assessed valuations is wholly due to the reduction in assessments on intangible personal property which are $18,000,000 lower in 1943 than in 1942.

The estimated tax rate for 1943 may vary from the final tax rate when the actual amounts of the state and county taxes for 1943 are finally apportioned. The rate will also vary in accordance with any revision of the City's valuations made by the Hudson County Board of Taxation.

CITY ORDINANCE

The time and place having been fixed by the Board of Commissioners and public notice advertised as required by law for the purpose of considering the final passage of the following ordinance:

"An Ordinance to provide for the license, regulation and control of the use of electrical and automatic musical instruments commonly known as "Juke Boxes" and similar instruments in stores, ice cream parlors, restaurants and other places of business," the City Clerk read the public notice and the ordinance and then called for anyone who might desire to protest against the final passage of said ordinance.

Counsellor George J. Baumann appeared with a large delegation of retail business men and women.

The Mayor called Mr. Baumann and the delegation and stated that the Commission does not wish to detain them and keep them away from their business establishments; that instead of keeping the delegation waiting while the Commission transacts the routine city business, the Commissioners thought it advisable to place this hearing on the calendar as the first order of business:

By the Mayor:

Before the presentation of the facts by the lawyers, let me say this: "The purpose of this ordinance is, as you all understand, to regulate stores and ice cream parlors in connection with the playing of musical machines. My attention has been called to the fact that it is going to work great hardships on you if it is adopted and enforced. That we do not want to do. We do not want to regulate your business. We have no desire to tell you how to conduct your business. Our only purpose is to regulate so far as protecting the children. As you know, children in the ten and 12-year age, particularly girls, must be properly protected. We felt that from the complaints Commissioner Casey received from the school authorities and from mothers and other sources, that some action had to be taken. I note that there are men and women here who conduct highly respectable places in the city. The Commission has no desire, particularly Commissioner Casey, to work any hardships on you. Our purpose was to try and regulate the matter particularly during the school hours. You say that is a hardship?

By Counsellor Baumann:

That is true.

By The Mayor:

You figure that it is going to interfere with your business and produce a serious condition?

By Counsellor Baumann:

Yes, sir, that is true.

By the Mayor:

We have no desire to do that. I have talked the condition over with Commissioner Casey and my colleagues and we have only one desire, that is to help you. In the presence of your lawyers now, we are ready to defer the adoption of this ordinance indefinitely. We will lay it aside as if it never appeared, but it will always be here, in the event our confidence is being betrayed and complaints continue to come in that children are allowed to loiter around until ten or eleven o'clock at night, particularly young girls. That is no time for a young girl to be out. I want you to understand that we are only trying to protect these children. Maybe we are a little over-anxious in our efforts. We are perfectly willing to forego that and defer action if you will give me your word that you will cooperate and do everything possible to regulate these conditions with respect to the children and the hours. There is no reason to permit the operation of these music boxes until late hours with these young children around and particularly during the hours when the children should be in school. You must do everything possible to see that the children do not loiter and go to school. We will call you in and do everything possible to aid you in the conduct of your business, but I only want you to remember ladies and gentlemen, that it will never be resurrected until I send for your lawyers. We will not treat it as a general proposition and injure honest men and women. I am not going to permit one or two places to continue the entire business. We will deal direct and if counsel wants to come in at any time and confer on the industry we will be glad to discuss it with him. The matter is entirely in your hands. This ordinance will be held in abeyance indefinitely. We will never allow it to be resurrected until we send for you if the occasion arises. We will enter into that agreement with your counsel and yourselves and the City Commission. We only did what we thought is our duty. Commissioner Casey thought it was his duty where children are involved and young girls are involved, to try and help them. If it is going to work great hardships on you, we will have to adopt other means that will be acceptable to the businessmen, the children and the governing body.

By Counsellor Baumann:

On behalf of the retailers, we want to thank you from the bottom of our hearts. We know you are working in the interest of the businessmen. We know that you want to help the small business men, who at this time is suffering hardships. We want to assure you that we will cooperate and I am going to tell these people that it is up to them to see that children do not loiter in the stores. We know that there are some complaints.

By the Mayor:

Particularly in the school neighborhoods. If we have any complaints it is our wish that Commissioner Casey send for you and talk it over. We have no desire to embarrass any small businessmen. If there is any difficulty, come down and see us. That is what we are here for. Send your lawyer or send your committee. We will be glad to talk it over with them. For the present this ordinance is as though it never appeared and if ever nevessary, we will have you here again. It will not go in "under cover."

By Counsellor Baumann:

Again, Mr. Mayor and members of the Commission, on behalf of the large delegation of businessmen and women present and the remaining members who are interested in this matter, I want to thank you for the assistance and cooperation extended to us.

By Commissioner Eggers:

By Commissioner Eggers:

Resolved, That the following ordinance be and the same is hereby rejected:

An Ordinance to provide for the license, regulation and control of the use of electrical and automatic musical instruments commenly known as "Juke Boxes" and similar instruments in stores, ice cream parlors, restaurants and other places of business.

Whereas, the unregulated use of electrical and automatic musical instruments commonly known as "Juke Boxes" has become a public evil in that children of school age are attracted to public places of business by the presence of such instruments, and are tempted to, and do in fact, frequent and loiter in such places during school hours and at night, to the prejudice of their school attendance and the performance of their school and domestic duties, with the result of fostering habits of idleness and delinquency with its attending evils; and

Whereas, the regulation of the use of such instruments in such places of business is therefore deemed to be necessary and proper for the good government, order and protection of children and for the preservation of their health, safety and welfare;

Now, therefore, the Board of Commissioners of the City of Jersey City do ordain:

1. No owner, lessee, tenant, or occupant of any store, ice cream parlor, restaurant or other place of business shall hereafter install, maintain, operate or cause, suffer or permit to be installed, maintained or operated any electrical or automatic musical instruments commonly known as "Juke Boxes" or similar instruments without a license first had and obtained therefor from the Board of Commissioners of the City of Jersey City.

2. Applicants for any such license as may be granted hereunder shall file with the City Clerk an application, sworn to by the applicant, setting forth the name and address of the applicant, the particular character of the appliances or instrument license for which it sought by the applicant, the place wherein such appliance or instrument is sought to be installed and maintained and the name of the owner, lessee, tenant, or occupant of such place, and the character of business carried on within such place. Said applicant shall deposit with the City Clerk, together with such application, a license fee of $100 for each such instrument or appliance as the applicant shall seek license for, which said sum shall carry such license in effect, if granted, until midnight of the 31st day of December following the date of such application. The license fee herein provided for is intended as a measure for the raising of revenue.

3. Upon the making of such application the City Clerk shall cause an investigation of the same to be made and the license shall issue upon verification of the facts contained therein, provided that such license may be refused if the applicant has heretofore been convicted of the violation of any of the provisions of this ordinance, and provided further, that such license may be revoked at any time after issuance for the same reason.

4. No licensee hereunder shall operate or permit the operation of any such instrument as is described in Section 1 hereof, between the hours of 9 o'clock in the forenoon and 4:30 o'clock in the afternoon nor after 9 o'clock in the evening of any day, if there is then present upon the premises, for any purpose, any person under the age of 17 years. Proof of the actual operation of any such instrument at any time or times prohibited herein shall constitute prima facie evidence that the licensee has operated or has permitted the operation of such instrument in violation hereof.

5. Any person, persons or corporation who violate any provision of this ordinance shall upon conviction before any police judge in the City of Jersey City be liable to a fine or not more than two hundred dollars ($200), and in default of the payment thereof, shall be imprisoned for a period not exceeding thirty (30) days. Each day's violation of the provisions of this ordinance shall constitute a separate offense and be punishable as provided herein.

6. All ordinances and parts of ordinances inconsistent with the provisions of this ordinance be and the same hereby are repealed in so far as they are inconsistent herewith. If any provisions of this ordinance be declared invalid, such invalidity shall not af-

fect any other provisions of this ordinance.

This Ordinance shall take effect immediately.

The roll being called the foregoing ordinance was rejected by the following vote:

Yeas: Commissioners Casey, Colford, Eggers, Potterton and Mayor Hague.
